

## Bachelor of Technology Degree Completion Programs

### ELIGIBLE COLLEGE PARTNER PROGRAMS

#### Admission Requirements

The Degree Completion Programs will consider students who have completed an advanced level (three year) technology diploma in a related technology field and have met the following GPA requirements:

Civil Engineering Infrastructure Technology: Minimum 80% GPA as of the Fall 2022 intake

Power and Energy Engineering Technology: Minimum 75% GPA

Manufacturing Engineering Technology: Minimum 75% GPA

Software Engineering Technology: Minimum 75% GPA

If you hold an advanced diploma (or equivalent) in a related technology and have a cumulative average above 70% but below the minimum GPA cut-off for your program of interest, please contact us at [thinkeng@mcmaster.ca](mailto:thinkeng@mcmaster.ca) or 905-525-9140 Ext. 27174 to discuss the alternate pathway that may be open to you.

Applicants with educational backgrounds equivalent to a three-year advanced level college diploma, including internationally educated applicants, will be considered on an individual basis and are encouraged to apply.

Those with university degrees are encouraged to consider graduate programs in engineering at McMaster.

\*Note: You must submit transcripts for ALL post-secondary work that you have completed (i.e. at a university or college in Canada or internationally), including work in any field completed prior to or after your advanced diploma.

#### Find Your College Program:

College	College Program	B.Tech. Program
<b>Algonquin College</b>	Architectural Technology	Civil Engineering Infrastructure Technology
<b>Algonquin College</b>	Civil Engineering Technology	Civil Engineering Infrastructure Technology
<b>Algonquin College</b>	Computer Engineering Technology – Computing Science	Software Engineering Technology
<b>Algonquin College</b>	Computer Engineering Technology - Networking	Software Engineering Technology
<b>Algonquin College</b>	Computer Engineering Technology - Security	Software Engineering Technology
<b>Algonquin College</b>	Computer Systems Technology - Security	Software Engineering Technology

<b>Algonquin College</b>	Computer Programming and Analysis	Software Engineering Technology
<b>Algonquin College</b>	Electrical Engineering Technology	Power & Energy Engineering Technology, Software Engineering Technology
<b>Algonquin College</b>	Mechanical Engineering Technology	Power & Energy Engineering Technology, Manufacturing Engineering Technology
<b>Bow Valley College</b>	Advanced Game Development	Software Engineering Technology

<b>Northern College</b>	Welding Engineering Technology	Manufacturing Engineering Technology
<b>Red River College</b>	Mechanical Engineering Technology	Manufacturing Engineering Technology
<b>Sault College</b>	Computer Engineering Technology	Software Engineering Technology
<b>Sault College</b>	Computer Programmer/Analyst	Software Engineering Technology
<b>Sault College</b>	Electrical Engineering Technology - Process Automation	Power & Energy Engineering Technology, Software Engineering Technology
<b>Sault College</b>	Mechanical Engineering Technology	Power & Energy Engineering Technology, Manufacturing Engineering Technology
<b>Seneca College</b>	Chemical Engineering Technology	Manufacturing Engineering Technology
<b>Seneca College</b>	Civil Engineering Technology	Civil Engineering Infrastructure Technology
<b>Seneca College</b>	Civil Engineering Technology - Municipal	Civil Engineering Infrastructure Technology
<b>Seneca College</b>	Civil Engineering Technology - Building	Civil Engineering Infrastructure Technology
<b>Seneca College</b>	Computer Engineering Technology (Advanced Diploma)	Software Engineering Technology
<b>Seneca College</b>	Computer Programming and Analysis	Software Engineering Technology
<b>Seneca College</b>	Computer Systems Technology	Software Engineering Technology
<b>Seneca College</b>	Electromechanical Engineering Technology - Automation	Power & Energy Engineering Technology
<b>Seneca College</b>	Electronics Engineering Technology	Power & Energy Engineering Technology, Manufacturing Engineering Technology Software Engineering Technology
<b>Seneca College</b>	Honours Bachelor of Commerce – Business Technology Management (BTM)	Software Engineering Technology
<b>Seneca College</b>	Honours Bachelor of Technology – Software Development (BSD)	Software Engineering Technology
<b>Seneca College</b>	Mechanical Engineering Technology - Building Sciences	Civil Engineering Infrastructure Technology, Manufacturing Engineering Technology, Power & Energy Engineering Technology

<b>Seneca College</b>	Mechanical Engineering Technology - Industrial Design	Power & Energy Engineering Technology, Manufacturing Engineering Technology
<b>Sheridan College</b>	Architectural Technology	Civil Engineering Infrastructure Technology
<b>Sheridan College</b>	Chemical Engineering Technology	Manufacturing Engineering Technology
<b>Sheridan College</b>	Computer Engineering Technology	Software Engineering Technology
<b>Sheridan College</b>	Computer Systems Technology - Software Development and Network Engineering	Software Engineering Technology
<b>Sheridan College</b>	Computer Systems Technology - System Analyst	Software Engineering Technology
<b>Sheridan College</b>	Electromechanical Engineering Technology	Power & Energy Engineering Technology, Manufacturing Engineering Technology, Software Engineering Technology
<b>Sheridan College</b>	Electronics Engineering Technology	Power & Energy Engineering Technology, Software Engineering Technology
<b>Sheridan College</b>	Internet Communications Technology	Software Engineering Technology
<b>Sheridan College</b>	Mechanical Engineering Technology	Power & Energy Engineering Technology, Manufacturing Engineering Technology
<b>Sheridan College</b>	Mechanical Engineering Technology - Design & Drafting	Power & Energy Engineering Technology, Manufacturing Engineering Technology
<b>St. Clair College</b>	Architectural Technology	Civil Engineering Infrastructure Technology
<b>St. Clair College</b>	Civil Engineering Technology	Civil Engineering Infrastructure Technology
<b>St. Clair College</b>	Computer Systems Technology	Software Engineering Technology
<b>St. Clair College</b>	Electronics Engineering Technology - Industrial Automation	Power & Energy Engineering Technology, Software Engineering Technology
<b>St. Clair College</b>	Mechanical Engineering Technology – Automotive Product Design	Manufacturing Engineering Technology
<b>St. Clair College</b>	Mechanical Engineering Technology	Power & Energy Engineering Technology, Manufacturing Engineering Technology
<b>St. Lawrence College</b>	Computer Programmer Analyst	Software Engineering Technology
<b>St. Lawrence College</b>	Civil Engineering Technology	Civil Engineering Infrastructure Technology
<b>St. Lawrence College</b>	Energy Systems Engineering Technology	Power & Energy Engineering Technology
<b>St. Lawrence College</b>	Instrumentation and Control Engineering Technology	Power & Energy Engineering Technology, Manufacturing Engineering Technology

\*The Bachelor of Technology Degree Completion Program will be reviewed periodically, introducing new amendments as appropriate. Any changes to this pathway will not affect students enrolled at McMaster.

\*\*Admission requirements are subject to change. Additional coursework may be recommended prior to admission for certain college programs. Please contact our office for further details.

\*\*\***You must submit transcripts for ALL post-secondary work that you have completed** (i.e. at a university or college in Canada or internationally), including work in any field completed prior to or after your advanced diploma.
